

FAMILY & SYSTEMIC CONSTELLATIONS FACILITATOR TRAINING

for
ONE-ON-ONE SESSIONS

A 2-DAY TRAINING
9th & 10th FEBRUARY 2019

This 2-day training is for those participants who have taken one or more 1-year (16-20 days) Family and Systemic Constellations training and want to use this system with individual clients in their offices.

Working with clients in the office is different from working with representatives in a group process as the information from the living representatives is absent. However symbols in the form of figurines, foot prints or mats, mugs or cups, or any available object can be used to represent the relationships between people or significant issues and reveal information from the field. We will also look at facilitating constellations in "the mind's eye," in the imagination.

The training will revisit the foundational principles of Bert Hellinger's Orders of Love, Orders of Helping and Levels of Conscience, and family and relational dynamics.

Particular attention will be paid to creating a safe space from the student's and client's perspective, encouraging an inner groundedness, presence and gentleness in the student facilitator, recognizing unresolved trauma in oneself and in others to avoid retraumatizing, and attending to and healing one's own unresolved issues.
